Customer Reviews

I received this product at a discounted rate in exchange for an honest review. I cant say I was completely impressed with this coloring book. I was super excited when I ordered it, however when it arrived I was as excited. The coloring book has black faded background for all pictures. Which I didn't think (even though it said midnight dogs) the pictures seem a little blurry, The backs of each page is black but faded. I took some pictures of what I am trying to say. When I have seen other adult coloring books they were of better quality. Its not awful its just not awesome either.

I am an avid coloring book enthusiast with over 150 books and have grown to love Alice Myles work and this book does not disappoint. Each picture is of a type of dog, they are created in the zen style and there are 20 pictures to color. The pictures are made with crisp, clear, bold lines, and are easy to color, the ink is even and consistent throughout each picture. This is super important to me in a book. The n pictures all have black backgrounds so when colored the color just pops off the page. Some pictures have a shaded effect to them so when colored they appear to glow when colored. I haven't colored one of these pages yet in this book so I will have to update and tell you when I do. I did find a couple of pages where the black background had some white streaking in it. It was not too bad and the book itself is such good quality I still give 5 stars. The paper quality is superb and when using gel pens I had no bleed through but still placed a paper between my pages just in case. I

would definitely do this if using markers. The pages are not perforated so I recommend using an exacto knife or scissors to remove your picture. This book is a good one for coloring enthusiasts of all ages, definitely one for the dog lover in your life. Disclaimer: I received this book at a discounted price to try then give my honest and unbiased review. I am not affiliated with this company and have not been compensated for my review in any way.

Really cute dog book. With this book, I can actually tell what the breed of the dog is supposed to be on the majority of the pages. Or at least what I think it is. I've gotten several different dog coloring books and on most of them, it's very hard to tell breed specifics. I like that you don't have that issue here. One design is printed on white while the others have a black background. The black paper is a bit different from other midnight books I've got, just like a previous reviewer stated. I didn't even really notice things looking blurry until I read the one review posted here. But to be fair, my eyesight really isn't the greatest. I had to really get close to the images to tell. So I don't see it as a major flaw here. I haven't tested the pages out for coloring yet as I usually need inspiration to strike first. But I'm looking forward to coloring them. I received this item at a discount for my honest review.

I am loving the adult coloring books that have come out. I have loved to color since I was little and now I have a reason to do it. It relieves stress when I color. It's easy to get bored with the basic pages in children's coloring books, so a book with lots of details was what I was looking for. Each page in this book was filled with details and lots of different sections to focus on. Each page is designed to take more than just a few minutes to color. I can color for hours and not realize how much time has gone by. I received this product at little to no cost in exchange for my unbiased and honest feedback. This in no way affected my review of the item.

The Midnight Dogs Adult coloring book is a really nice coloring book. It has nice pictures to color and I like the different looks of the pictures. The book is good quality and a nice size. I would definitely recommend the book to friends and family. It is very calming to color. I received a discount code toward my purchase in return for my honest review.
